

Pixels of HOPE

CONNECTING CHILDREN WITH GOD in the Digital Age

Will you Help us raise the €18,000 we need to introduce thousands of children to the gospel this year through digital technologies?

In a world where screens dominate, children are spending nearly 20 hours a week immersed in digital content. While technology offers incredible opportunities, it also presents a challenge: how do we ensure children encounter messages of hope, love, and faith amidst the noise? At Pixels of Hope, we're dedicated to bridging this digital divide, bringing the light of the Gospel to children's fingertips through innovative online resources....

**...AND WE NEED YOUR URGENT HELP
TO CONTINUE THIS WORK INTO 2025**

Adam, a ten-year-old boy, was introduced to Bible Correspondence Courses Online by a schoolmate, which led him on a spiritual journey. Starting with the Emoji course, Adam had many questions, which his guide helped him understand through the message center. He then progressed to the "What Do Christians Believe?" course, where he expressed his desire to live according to God's will. Despite facing spiritual attacks and personal struggles, Adam found joy in prayer and his faith grew stronger. **His transformation was so evident that his mother noticed changes in him. Adam's mother bought a Bible, and his teenage sister, sceptical, joined the courses and later trusted Jesus as well.** Tragically, Adam died in a car accident eight months later, but his faith left a lasting impact. At his funeral, both his mother and sister's boyfriend trusted Jesus, and the family celebrated Christmas together, reading the Bible. **Adam's legacy continued through the notes he left behind, reminding his family of their value to God and the importance of new beginnings.**

A GREAT VISION

Our vision is to bring positive transformation through digital communication and provide digital tools so children can find good Gospel materials online. We want reach every child through developing and making Christian digital platforms available 24/7, so children are daily influenced by God's word. Digital technologies have changed our society, and children are very exposed to these trends. It is crucial to be present, engaged, and to capitalize on every opportunity, which we are excited to be able to grow in 2025!

By developing Wondersurf, a Bible Correspondence Course Online, and Unite resources, we are confident that seeds of faith will reach MANY children's hearts, prompting them to search for and find God. Our desire is to provide quality materials that will transform children's lives and guide them on how to live the Christian life.

*"As a Regional Director, I believe that **DIGITAL MINISTRY** is powerful tool that enables us to share the Gospel with children all over Europe. Tools like U-Nite, Wondersurf, and digital tracts help children hear about Jesus in their own language, making the message easy to understand and meaningful. By translating videos, utilizing social media, and working with Christian media, we can bring the message of salvation to more children than ever before in a cost-effective way." - I, Mangalagiu*

? HOW YOU CAN HELP

We urgently need an additional € 36,000 to be able to achieve our vision this year of developing our Christian digital resources, producing these in multiple languages and establishing platforms and relationships to be able to see this crucial digital ministry flourish across Europe:

YOUR GIFTS WILL ENABLE US TO:

- ✓ Implement Digital platforms across a number of new European countries
- ✓ Translation of video animations and other resources for children
- ✓ Support the travel costs and marketing of the digital ministry across Europe
- ✓ Enable us to purchase additional Equipment needed to be able to produce the new digital resources

A generous friend and partner, who is excited and stirred about this opportunity to reach many more children, has given us a great encouragement to see this goal reached. They have agreed to match fund up to € 18,000 towards fully funding the project for 2025, if we can raise the other € 18,000.

We have already seen so many lives transformed by God through the help of our Digital ministry and do not want this vital ministry to be held back by lack of finance this year. **WILL YOU CONSIDER PARTNERING WITH US ON THIS MISSION?**

Your involvement will make a powerful impact, and we want you to know the joy of investing in something truly transformative for many lives!

For His Glory.
Vilijam Valentini.
Director of the Digital Department of CEF Europe
